

Arrival Instructions For Visitors

Are you visiting the factory? Please get in touch with your designated host on arrival. Safety clothing is available in all our offices, and your host will provide the necessary guidance.

Traffic and moving around the factory area

You can only move around the factory area when accompanied by your host or with their permission. Visitor parking is allowed only in designated areas. General traffic rules apply within the premises, with a maximum speed limit of 20 km/h. Movement within the factory area is at your own risk. Be aware of forklifts—they have the right of way, and their drivers have limited visibility.

In case of fire

Follow your host's instructions. The general emergency services phone number in Finland is 112.

Use of cell phones

Using a phone while moving within the production area is prohibited. If you need to use your phone, please stop in a safe location before doing so.

Medical condition

Please **inform your host** if you have recently experienced, or are currently experiencing, a contagious illness—whether bacterial or viral—that is transmittable through airborne particles or physical contact (e.g., common cold, cough, influenza, pneumonia, streptococcus, stomach flu, rashes, etc.).
